### **Screenshot 4**

On the page that opens (Screenshot 5*a*) you can familiarize yourself with the Cover Letter of the selected work and choose one of two alternative solutions:

1. Download the full text of the paper by paying for full access to it. This decision can be made if the content of the **Cover Letter** is useful to you, and, based on the **Cover Letter** you immediately understand that this work will be really interesting and useful to you.

2. Get acquainted with the **Resume** of the work, which gives a more complete picture of its content, by paying USD 3.40 for accessing the full text of **Resume**. If the **Resume** content convinces you that this work will really be interesting and useful to you, you can pay for full access to this work. If the content of **Resume** does not convince you of this, you can refuse further steps to purchase this paper but return to this, if necessary, later.

## Important!

On the page that opens, you can also familiarize yourself with the brief characteristics of this work (Screenshot 5*b*):

- content type;
- date of publication on the Platform;

- ID-number of this work on the Platform;

- The rating of this work in numerical terms, as the average value of the numerical assessment of the scientific quality of a given work, defined by three reviewers – scientists in a given field of knowledge;

- The rating of the work in numerical terms, as an average integrated value of the numerical assessment of the practical usefulness of this work, defined by end users;

- Number of downloads of this work by end users;

- The cost of full access to this work, automatically set by the InGraph Platform, depending on the average value of the numerical assessment of the quality of this work, defined by three reviewers, i.e. the **Reviewer's rating**
