If you are already registered on the Platform as an **Author** or **Reviewer**, you can log into your account (**Screenshot 6**) and, by selecting the new **End User** role for yourself in the upper right corner (**Screenshot 7**), create your personal account as an **End User** (**Screenshot 8**). That is, in addition to your existing **Author** and **Reviewer** accounts, you will also have a personal **End User** account, in which your downloaded works will be displayed.

**Screenshot 6** 

Next, you need to click on the **InGraph** logo (**Screenshot 9**) and you will find yourself on the Main page of the Platform. Go to **Products** (**Screenshot 2**), click on the work of your choice (**Screenshot 4**), and the Platform asks where you would like to download the selected work on your computer. After your choice, the work is saved on your computer in the folder that you have chosen. You will see the download result in the lower left corner (**Screenshot 10**).
